Manufactured Mineral Products Operator (Level 4)

This qualification provides for those wishing to work autonomously or with limited supervision in the manufacture of:

- ♦ clay products such as bricks, pavers, tiles, pipes, etc.
- ♦ pre-mixed concrete
- ♦ concrete products including pipes, culverts, pavers, blocks, architectural panels, etc.
- ♦ ceramics including tiles, sanitary ware, etc.

The nominal duration of the training programme is up to **48 months**, although with recognition of current competency and self-paced learning, it can be completed appreciably sooner.

The **Manufactured Minerals Operator Level 4** operates various equipment to produce products from a range of raw materials. They will operate controls to transfer material to storage and production, determine properties and quantities and may use other material for colouring.

Entry may be through:

- **a new-start traineeship***

*in Queensland, this is funded through the User Choice Program by the Department of Education and Training)

*in NSW This training is funded by the NSW Government in partnership with the Commonwealth Government)

*in SA This training is funded by the SA Government in partnership with the Commonwealth Government)

*in ACT This training is funded by the ACT Government in partnership with the Commonwealth Government)

*in NT This training is funded by the NT Government in partnership with the Commonwealth Government)

- **an existing worker traineeship**
- **fee-for-service**

Programme Structure

Refer to our *unit selection form* and *competency unit summary booklets* for further information on the program structure

New features of the PMC training package

Because specialisation is a requirement in some industry sectors for the Certificate IV, Alan Bartlett Consulting may choose to issue a generic qualification:

‘Certificate IV in Manufactured Mineral Products’

or, where elective units of competency are packaged to suit a particular industry sector or specialisation, Alan Bartlett Consulting might issue a:

Certificate IV in Manufactured Mineral Products (specialising in xxxxxx)*

Industry sector/specialisations could include, but are not limited to:

- Cement
- Precast concrete
- Premixed concrete
- Clay products
- Ceramic products
- Float (flat) glass
- Glass containers
- Refractories
- Plaster (both fibrous plaster and plaster boards)
- Fibre cement boards
- Ground minerals
- Abrasive grinding wheels and cutting discs
- Other areas.

*It should be noted that a qualification with a specialisation does not change the title of the qualification, although Alan Bartlett Consulting may choose to record the specialisation. The AQTF requirements must be complied with and the qualification or Statement of Attainment should clearly specify the units of competency achieved and where appropriate, the specialisation.
